(c) Information regarding the industrial units lying closed in the country is centrally collected by the Ministry of Labour in respect of factories registered under the Factories Act, 1948, and is published in the Indian Labour Journal, which is a monthly publication of the Labour Bureau, Government of India. Copies of the publication are available in the Parliament House Library.

(d) A number of causes, both internal and external, often operating in combination, have been responsible for industrial sickness. Some of the principal causes are faulty planning, management deficiencies, inefficient financial control, diversion of resources, inadequate attention of R&D, obsolescence of technology and machinery, poor industrial relations, inadequacy of demand, shortage of raw materials and other inputs and infrastructural constraints

To meet the situation of industrial sickness in the country, Government announced policy guidelines in October, 1981, which require Ministries administratively concerned with various industries to take responsibility for prevention and remedial action for rehabilitation of sick units. Banks and financial institutions are also required to strengthen the monitoring arrangements for prevention of sickness and to take appropriate corrective measures on the basis of diagnostic studies where units have become sick. The Government will also provide neecssary assistance where feasible as per the rehabilitation package prepared by banks and financial institutions for revival of sick units.
